ANNOUNCEMENT - AKAL SECURITY, INC.

Akal Security, Inc. today announced the sale of a part of its assets in Hawaii to Securitas Security Services USA, Inc., in a transaction scheduled to close on February 20th, 2009. This transaction will include over 30 locations and over 300 security officers. It does not include any of Akal's Federal Government contracts, nor does it include any of Akal's non-Federal contracts outside of the State of Hawaii, which Akal will continue to manage independently. The assets sold represent a small percentage of Akal's business revenues and assets around the world.

"We are pleased to be able to make this announcement today," stated Daya Khalsa, Akal's President. "Securitas understands the value of our clients and employees in Hawaii and the quality of service Akal and its security officers have delivered. Because of that understanding, we are confident that our clients will receive enhanced service quality from Securitas' superior regional capabilities and resources, and our employees will be working with an organization that will value their hard work and dedication."

Akal's Pacific Region Director, Mr. Lee Donohue, will be joining Securitas USA in the capacity of Director of Security for the Hawaiian Area. Mr. Donohue has a lifetime of experience in law enforcement and security operations. He is perhaps best known for his long and distinguished career with the Honolulu Police Department, retiring as Chief in 2004. "I have really enjoyed working with Akal and helping to build a great team in Hawaii for them", Mr. Donohue stated, "and I'm glad that I'll be able to continue serving the Akal clients with support and resources from Securitas. I'm confident that my clients will see continuity and even improved responsiveness. That's what is most important to me."

Akal will continue to have an important presence in Hawaii, providing security for most of the Federal Government buildings and Courthouses in the State. Those Akal clients will see only minimal changes resulting from this transaction. Akal Security provides vital security services to Federal, State and local Government throughout the United States, and to the Federal Government overseas. Akal's over 10,000 employees are on the front lines at hundreds of Government facilities, protecting critical infrastructure and personnel. Headquartered in New Mexico, with offices in the Washington DC area, and in many cities throughout the country, Akal was started in 1980 and has grown to become one of America's largest security providers.
